English : B1

PROFILE

Full Stack Software Developer with a strong track record in creating and maintaining web applications and software solutions.

WORK EXPERIENCE

Software Developer Analyst

Grupo Prides   February 2024 - Present

Responsible for managing a series of integrated web projects, developing new functionalities, and providing ongoing maintenance and support for these systems. My role includes ensuring the optimal performance of each project, delivering effective solutions, and guaranteeing a high-quality user experience.

Technologies and tools

C#, ASP .NET, .NET Core, MVC, Git, HTML, CSS, Typescript, Angular, JQuery, SQL Server, JSON, Bootstrap, Entity Framework, LinQ, Scrum

Junior Software Developer

Grupo Diverscan S.A.   February 2023 - February 2024

As a junior software developer, I focus on developing websites for asset management. I collaborate closely with cross-functional teams to design, build, and maintain websites that enhance user experiences and streamline asset management processes, all while adhering to quality standards and meeting our clients' requirements.

Technologies and tools

C#, ASP .NET, .NET Framework, HTML, CSS, Bootstrap, JQuery, SQL Server, IIS, Git, JSON, JIRA, Scrum

Full Stack Developer Freelance

Intel   September 2022 - October 2022

As a developer, worked on implementing the front-end of an internal business application used for CRUD operations on users and products using ReactJS, including the integration with the existing .NET back-end logic that connected with the persistence layer. This was done following the design of the team's tech lead.

Technologies and tools

C#, ASP .NET, ReactJS 17, Git, HTML, CSS, Typescript, JSON, MySQL, Bootstrap, Entity Framework, Scrum
